 11 Attorneys for Plaintiff  
 UNITED STATES OF AMERICA

12 UNITED STATES DISTRICT COURT  
 13 FOR THE CENTRAL DISTRICT OF CALIFORNIA  
 14 SOUTHERN DIVISION

15 UNITED STATES OF AMERICA,  
 16 Plaintiff,  
 17 v.  
 18 FIVE ARTICLES OF DRUG, ACAM2000,  
 19 VACCINIA VACCINE, LIVE,  
 20 Defendants.

No. CV 17-1449  
VERIFIED COMPLAINT FOR FORFEITURE  
 21 U.S.C. § 334  
 [F.D.A.]

22 The United States of America brings this claim against the  
 23 defendants Five Articles of Drug, ACAM2000, Vaccinia Vaccine, Live,  
 24 described more particularly below (the "defendant articles"), and  
 25 alleges as follows:

26 JURISDICTION AND VENUE

27 1. This is a civil forfeiture action *in rem* brought pursuant  
 28 to 21 U.S.C. § 334 to seize and condemn the defendant articles

1 because they are in violation of the Federal Food, Drug, and Cosmetic  
2 Act (the "Act"), 21 U.S.C. § 301 et seq.

3 2. This Court has jurisdiction over the matter under 28 U.S.C.  
4 § 1345 and 21 U.S.C. § 334, which provide the Court with jurisdiction  
5 over seizures commenced by the United States under the Act.

6 3. The defendant articles are located at the United States  
7 Food and Drug Administration, Pacific Southwest Food and Feed  
8 Laboratory, 19701 Fairchild, Irvine, California.

9 4. Venue lies in this district pursuant to 28 U.S.C. § 1395(b)  
10 because the defendant articles are located in this district.

11 PERSONS AND ENTITIES

12 5. The plaintiff is the United States of America.

13 6. The defendant articles are five (5) vials of ACAM2000  
14 Vaccinia Vaccine, Live, Labeled, in part, "ACAM2000 Expires 17 Months  
15 From June 2017."

16 7. The United States requests that this Court issue a warrant  
17 for arrest *in rem* pursuant to Supplemental Rule for Certain Admiralty  
18 and Maritime Claims G(3)(b), which the United States will execute  
19 upon the defendant articles pursuant to Supplemental Rule G(3).

20 EVIDENCE SUPPORTING FORFEITURE

21 8. The defendant articles are drugs within the meaning of the  
22 Act, 21 U.S.C. § 321(g)(1)(B), because they are intended for use in  
23 the diagnosis, cure, mitigation, treatment, or prevention of disease  
24 in man. The defendant articles are also biological products within  
25 the meaning of the Public Health Service Act, 42 U.S.C. § 262(i)(1).  
26 A product can be both a drug and a biological product, and such  
27 products are subject to the Act, including its misbranding  
28 provisions. See 42 U.S.C. § 262(j).

1           9.     The defendant articles are also intended for use as  
2 components of another drug, as described in paragraph 12 below.  
3 Components of drugs are drugs within the meaning of the Act, 21  
4 U.S.C. § 321(g)(1)(D).

5           10.    The defendant articles were shipped in interstate commerce  
6 from outside the state of California to a facility in California.

7           11.    ACAM2000 is an FDA-approved biological product for active  
8 immunization against smallpox disease for persons determined to be at  
9 high risk for smallpox infection. ACAM2000 is a live vaccinia  
10 vaccine that can be shed if lesions form on recipients, which can  
11 transfer viral infection to others in close contact. The only  
12 approved route of administration for ACAM2000 is the percutaneous  
13 route (scarification). ACAM2000's FDA-approved labeling expressly  
14 states that ACAM2000 "should not be injected by the intradermal,  
15 subcutaneous, intramuscular, or intravenous route." ACAM2000 is not  
16 approved to treat cancer, and is contraindicated for "[i]ndividuals  
17 with severe immunodeficiency," which often includes cancer patients.  
18 Before administering the drug, a droplet (0.0025 mL) of reconstituted  
19 vaccine is picked up with a bifurcated needle by dipping the needle  
20 into the ACAM2000 vial.

21           12.    According to labeling, including but not limited to a  
22 protocol, the defendant articles are combined with autologous stromal  
23 vascular fraction ("SVF") derived from adipose (fat) tissue to treat  
24 patients suffering from a range of advanced stage cancers. The  
25 combined SVF/ACAM2000 is administered intravenously and  
26 intertumorally, with the ACAM2000 administered at several times the  
27 approved dose used for scarification of the skin.

28           13.    The combined SVF/ACAM2000 is a new drug within the meaning  
of 21 U.S.C. § 321(p), because it is not generally recognized by

1 qualified experts as safe and effective under conditions of use  
2 recommended and suggested in its labeling.

3 14. The combined SVF/ACAM2000 is an unapproved new drug in that  
4 there are no approved applications for this drug, nor is it the  
5 subject of an investigational new drug application.

6 15. The defendant articles are misbranded within the meaning of  
7 the Act, 21 U.S.C. § 352(f)(1), because they are intended to be  
8 combined with SVF, the combination SVF/ACAM20000 is an unapproved new  
9 drug, and the ACAM2000 labeling does not bear adequate directions for  
10 that use. The defendant articles are not exempt from such  
11 requirement under 21 C.F.R. § 201.115, nor any other exemption in  
12 subpart D of Part 201. Moreover, any exemption that might otherwise  
13 apply ceased to exist under 21 C.F.R. § 201.127(a), because the drugs  
14 were shipped for purposes beyond those that are specified in  
ACAM2000's approval.

15 16. The defendant articles are also misbranded because, as  
16 components of the unapproved SVF/ACAM2000, they are "dangerous to  
17 health when used in the dosage or manner, or with the frequency or  
18 duration prescribed, recommended, or suggested in the labeling  
19 thereof." 21 U.S.C. § 352(j).

20 17. Between July 17, 2017, and August 04, 2017, United States  
21 Food and Drug ("FDA") investigators conducted an inspection of  
22 StemImmune, Inc., located in San Diego, California. During the  
23 inspection, FDA investigators determined that StemImmune received a  
24 shipment of five vials of ACAM2000 Vaccinia Vaccine, Live, Lot #VV03-  
25 019-C, and identified a protocol for combining the ACAM2000 with SVF,  
26 as described in paragraph 12 above.

27 18. On July 28, 2017, the California Department of Public  
28 Health placed the defendant articles under embargo. The embargoed

1 articles were subsequently transported to FDA's Los Angeles District,  
2 as described in paragraph 3, where they remain.

3 19. By reason of the foregoing, the defendant articles are held  
4 illegally within the jurisdiction of this Court and are subject to  
5 seizure and condemnation pursuant to 21 U.S.C. § 334.

6 CLAIM FOR RELIEF

7 20. Based on the above, plaintiff alleges that the  
8 defendant articles are misbranded drugs that are held illegally  
9 within the jurisdiction of this Court and are liable to seizure,  
10 forfeiture, and condemnation pursuant to 21 U.S.C. § 334.

11 WHEREFORE, plaintiff United States of America prays:

12 (a) That the Court issue a warrant of arrest in rem for the  
13 United States Marshals Service for the Central District of California  
14 or any other duly authorized law enforcement officer to seize and  
15 maintain the defendant articles during the pendency of this action;

16 (b) that due process issue to enforce the forfeiture of the  
17 defendant articles;

18 (c) that due notice be given to all interested parties to  
19 appear and show cause why forfeiture should not be decreed;

20 //

21 //

22 //

23

24

25

26

27

28

1 (d) that this Court decree forfeiture of the defendant articles  
2 to the United States of America for disposition according to law; and

3 (e) for such other and further relief as this Court may deem  
4 just and proper, together with the costs and disbursements of this  
5 action.

6  
7 Dated: August 23, 2017

Respectfully submitted,

8 SANDRA R. BROWN

VERIFICATION

I, Daniel Cline, hereby declare that:

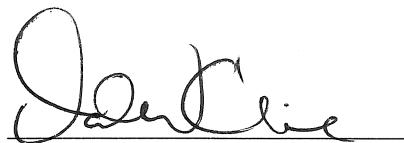

1. I am a Compliance Officer for the United States Food and Drug Administration, Department of Health and Human Services, and am assigned to the forfeiture manner captioned United States of America v. Five (5) articles of drug, ACAM2000, Vaccinia Vaccine, Live.

2. I have read the above Verified Complaint for Forfeiture *In Rem* and know its contents. It is based on my own personal knowledge and reports provided to me by other law enforcement agents.

3. Everything contained in the Complaint is true and correct, to the best of my knowledge and belief.

I declare under penalty of perjury that the foregoing is true and correct.

Executed August 22, 2017, in Irvine California.

DANIEL CLINE
